Education

Indian Institute of Information Technology Bhagalpur

August 2023 – June 2027

Bachelor of Technology in Computer Science and Engineering

CGPA: 7.99/10

Experience

Medzillo Intern | [📄 Certificate](#)

May 2025 – August 2025

Frontend Developer Intern

Remote

- Engineered a Role-Based Access Control (RBAC) using React.js, optimizing validation and state management across 3 portals, reducing unauthorized access attempts by 33%.
- Constructed a reusable component library from Figma specifications utilizing Tailwind CSS, standardizing the DOM structure and reducing subsequent feature development effort by 40%.
- Analyzed frontend performance bottlenecks and reduced unnecessary API payloads by 25% by integrating React Query caching and Axios request optimization.

Mittal Alliance | [📄 Certificate](#)

April 2025 – May 2025

Full Stack Development Intern

Remote

- Spearheaded the development of 10+ responsive UI components for a Book Author platform and a Trader Portfolio using React.js, accelerating rendering efficiency and standardizing cross-platform layouts.
- Integrated REST APIs into existing React architecture, analyzing system requirements to execute 20+ targeted UI updates and robust bug fixes within a shared, cross-functional codebase.
- Optimized legacy React components by deploying critical feature enhancements, resolving core UI inconsistencies, and enforcing strict code quality standards to improve long-term maintainability.

Projects

UPI Offline Mesh Payment System | *Java, Spring Boot, React, PostgreSQL, Redis, Docker, Ollama* | [🌐 Source Code](#)

- Architected an offline payment system supporting transactions across **4 simulated Bluetooth mesh nodes**, enabling settlement within **2 seconds** after internet connectivity is restored.
- Implemented hybrid encryption using **RSA-2048 and AES-256-GCM**, Redis-backed idempotency, and replay protection to secure **100%** of transaction requests against duplicate processing.
- Built a React dashboard visualizing real-time packet routing, transaction status, and network topology, and integrated a local **Llama 3** assistant that answers transaction queries using backend-computed data.

IIITBH Nexus (Paperwallah) | *Full-Stack Project* | [🌐 Live Demo](#)

- Co-engineered a full-stack platform with a 3-person agile team for IIIT Bhagalpur, centralizing scattered academic resources into a single, highly accessible portal.
- Established JWT-based authentication and Spring Boot REST APIs with PostgreSQL to provide secure user access and academic resource management.
- Utilized Google Analytics 4 to evaluate 15K+ user events from 891 daily active users, guiding A/B testing and UI improvements that increased feature adoption.

Technical Skills

Languages: Java, JavaScript, TypeScript, SQL, Python

Frontend: HTML5, CSS3, React.js, Next.js, Vite, Tailwind CSS

Backend: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, GraphQL

Databases & Infrastructure: PostgreSQL, MySQL, Redis, Docker, Flyway, Firebase, Vercel

Concepts & Tools: OOP, SOLID Principles, Design Patterns, JWT, Git, GitHub Actions, Postman, Maven

Certifications

- ServiceNow Certified System Administrator (CSA): [📄 Certificate](#)
- ServiceNow Certified Application Developer (CAD): [📄 Certificate](#)

Leadership & Achievements

- Program Lead – Unnati Welfare Society:** Delivered digital literacy workshops for 500+ underprivileged students across multiple government schools, promoting technology education. [📄 Certificate](#)
- 2nd Place – National UI/UX Hackathon, IIITDM Kancheepuram:** Earned 2nd place among 200+ participating teams by designing a user-centered interface supported by research and case studies. [📄 Certificate](#)
- 3rd Place – Gagan's Winning Edge Persona Program:** Completed a 32-hour professional development program focused on technical leadership, communication, and effective Teamwork.
